PROFILE

Computer Science & Engineering student with a growing interest in programming, web development, and technology. Building strong foundations in C, C++, JavaScript, HTML, CSS, React.js, Data Structures & Algorithms, and practical software development through projects.

EDUCATION

Ajay Kumar Garg Engineering College (AKGEC), Ghaziabad, Uttar Pradesh

Bachelor of Technology (B.Tech) — Computer Science & Engineering | 2025–2029 | Currently in 2nd Year

TECHNICAL SKILLS

Programming	C, C++
Web Development	HTML, CSS, JavaScript, React.js
Core Concepts	Data Structures & Algorithms
Tools	Visual Studio Code, Git, GitHub, Vercel

PROJECTS

Personal Portfolio Website

- Designed and developed a responsive personal portfolio website using HTML and CSS.
- Created sections for About, Skills, Projects, Education, and Contact with responsive navigation and mobile-friendly layout.
- Added custom visual elements and animations; deployed the website using GitHub Pages.

Zombie Target Shooting Game

- Built a browser-based target-shooting game focused on interactive gameplay and user input.
- Implemented target interaction, game logic, and score-based feedback using JavaScript.

The Daily — News Website

- Developed a React-based news website with a clean interface for browsing news stories and categories.
- Worked with reusable components, routing, search/filter experiences, and responsive layouts.

ShopSphere — E-commerce Website

- Built the frontend for an e-commerce platform with product browsing, product details, cart, wishlist, and authentication screens.
- Used React.js and React Router to create reusable UI components and multi-page navigation; connected frontend flows to backend APIs.

AREAS OF INTEREST

• Web Development • Programming & Problem Solving • Data Structures & Algorithms • Software Development
